QUICK GUIDE TO CALIFORNIA COASTAL TRAIL

DESCRIPTION: The California Coastal Trail is a network of existing and proposed trails along the Pacific Coast from Mexico to Oregon. Within the Santa Monica Mountains, the trail follows the shoreline across public beaches with pedestrian walkways, along undeveloped coastline (use tide charts to avoid high tide), and in front of beach front residences. For access information, download the "Our Malibu Beaches" app.

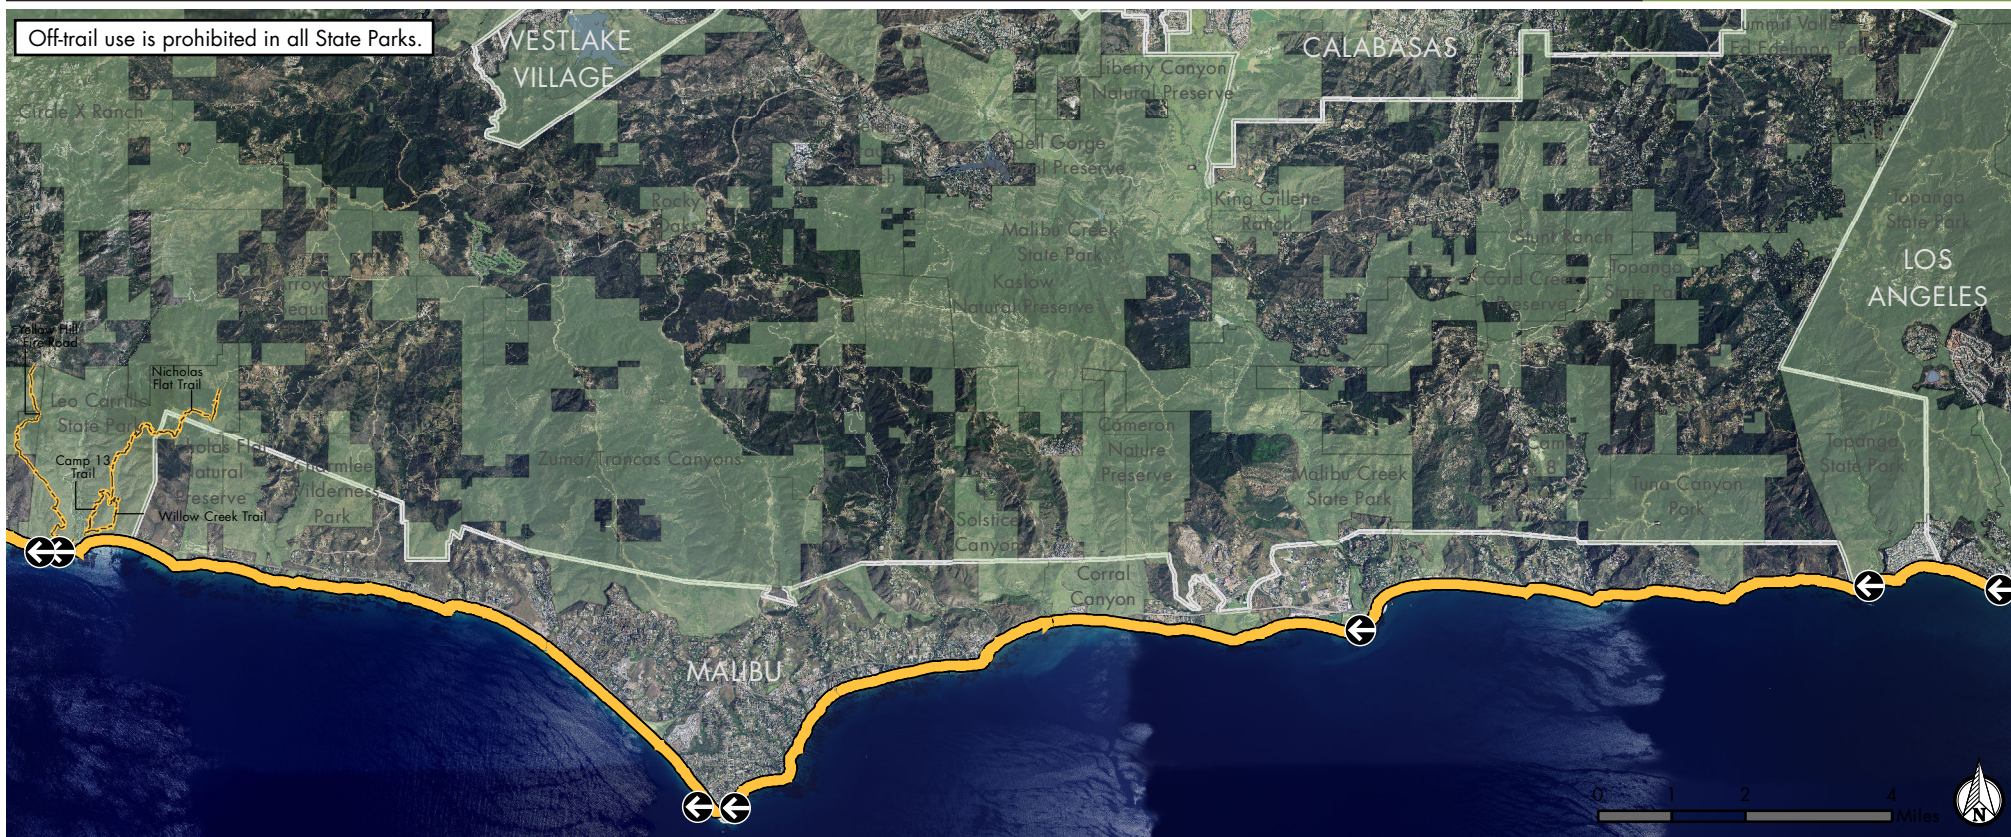

DIRECTIONS: The California Coastal Trail is accessible from a number of access points along the PCH, including staging areas at Will Rogers State Beach, located approximately 4 miles north of Santa Monica and Leo Carrillo State Beach, located approximately 10 miles north of Malibu.

SANTA MONICA MOUNTAINS NATIONAL RECREATION AREA

Length: 29.11 miles
Elevation Gain: 23 feet

Off-trail use is prohibited in all State Parks.
